How the Participant observation helps to Learn to Unlearn for knowing the known and Unknown Production of Space?
Dr. Ram Sateesh Pasupuleti,
Asst. Prof., IIT Roorkee

Qualitative Research Paradigm delves upon in-depth multidimensional understanding of a phenomenon rather than generalizing or hypothesis testing. The methods employed include though not limited to field study, observation, in depth interviewing and so on. The program aims to expose the participants to understand research design of qualitative studies, their strengths and weaknesses, validity reliability aspects. Eminent researchers who have used qualitative strategies would be the speakers focusing on theory and application / case examples of qualitative research. Sessions will also include nature of data collected and its analytical tools used in qualitative research inquires. Participants would also be engaged in tasks as a hands on activity during the program.
